

MacMillan Bloedel - Kelsey Bay Division - Log Skidway Installation Project

Sector: Sawmills & Logging
Location: Kelsey Bay BC
Owner: MacMillan Bloedel Limited
Duration: 2 Weeks
Completion: Spring 1988
Consultant: Promac Industries Ltd.

Project Highlights:

Early 1988 Brymark was awarded the installation of Kelsey Bay Division's new Log Skidway. With Brymark's proven track record for delivering shut-down projects and installing structural steel we were the contractor of choice. Brymark worked a flexible schedule to match the low tide opportunities. This allowed the log sort to maintain watering operations on the high tides with no loss of production while construction was taking place.
