

Chevron Canada - Burnaby Refinery - DHT Module Fabrication Project

Sector: Piping, Skid & Module Fabrication
Location: Brymark's Fabrication Facility
Owner: Chevron Canada
Duration: 4 Months
Completion: July 1993
Consultant: TEL Project Corp

Project Highlights:

Early in the Spring of 1993 Chevron Canada awarded Brymark the fabrication for the specialty module portion of the Diesel Hydro Treating Unit Project. These one of a kind units were completely assembled in our Port Coquitlam facility using all trades, tested, inspected and shipped as turnkey units. Brymark's crews received and installed the units at the refinery as part of the DHT project.
