

# Fletcher Challenge Canada - Crofton - Oxygen Bleaching System Project

**Sector:** Pulp and Paper  
**Location:** Crofton, BC  
**Owner:** Fletcher Challenge Canada  
**Duration:** 3 Months

**Project Highlights:**  
 Brymark was chosen by Fletcher Challenge for the installation of a new \$5 million Oxygen Bleaching System at their Crofton Operations. The project improved both the mill's long-term viability and its environmental performance. Brymark erected two oxygen reactors, using a tandem crane lift involving two 165-ton cranes. The larger reactor was 115 feet tall, nine feet in diameter, and weighed 62 tons; the smaller of the two was 90 feet tall, seven feet in diameter, and weighed 37 tons. Brymark was also responsible for the process & service piping along with mechanical equipment installations.
