

BC Hydro - Burrard Generating - Offshore Structure Rehabilitation Project

Sector: Power Generation.
Location: Port Moody BC (BGS)
Owner: BC Hydro
Duration: 7 months
Completion: June 2007
Consultant: BC Hydro Engineering

Project Highlights:
 Spring 2007 Brymark won the contract to update the existing offshore intake structure at BC Hydro's Burrard Generating Facility. Scope included lead abatement of existing surfaces, removal of corroded piping and structural components. For longevity these were replaced with Stainless Steel. Delivered with Zero Environmental and Safety incidents.
