

BRYMARK

Sepro Mineral Services - Abbotsford - Stikine Frac Sand Pilot Plant Project

Sector: Mining - Sand and Gravel Processing.
Location: Abbotsford, BC
Owner: Sepro Mineral Services Corp
Completion: October 2010
Consultant: Sepro Mineral Services Corp

Project Highlights:

Fall 2010 Sepro Mineral Services called on Brymark to install a Pilot Frac Sand Processing Plant at a quarry site in Abbotsford BC. This small scale plant included conveyors, crusher, vibrating screens, density separators and cyclones. Our Crew found working with that the "mini scale" sized components was an interesting experience as they are usually installing much larger components of the same type. The project was successful and incident free.
