

Global Container Terminals - Deltaport - RMG # 6 Slew Bearing Replacement

Sector: Ports and Terminals
Location: Delta, BC
Owner: Global Container Terminals Inc
Duration: Shut down work
Completion: July 2014

Project Highlights:

July 2014 Global Container Terminals at their Delta Port site called in Brymark on an emergency call out to change a failing slew bearing on one of their "Rail Mounted Gantry" Cranes" (RMG # 6). Brymark mobilized crew and equipment promptly. The work took place around the clock to swap out the slew bearing in order to turnover the RMG back to operations in the shortest possible time frame. The project was incident free.
