

Kinder Morgan - Vancouver Wharves - Rail Car Dumper Upgrade Project

Sector: Ports & Terminals
Location: North Vancouver BC
Owner: Kinder Morgan
Duration: 1 month
Completion: November 2014
Consultant: Metso Minerals

Project Highlights:

Late fall 2014 Brymark was awarded the contract to upgrade Kinder Morgan's Sulfur Rotary Rail Car Dumper with new Trunnions and a Knife Bridge System. This upgrade enabled the aging car dumper to accept both Canadian and American standard length rail cars. By having the flexibility to use both types of rail cars the commodity shippers were able to reduce unit train shipping costs. Despite challenges Brymark's team delivered.
