

BRYMARK

Pacific Coast Terminals - Port Moody - Specialty Strainer Fabrication Project

Sector: Piping, Skid & Module Fabrication
Location: Brymark's Fabrication Facility
Owner: Pacific Coast Terminals
Completion: October 2014
Consultant: Sacre-Davey Engineering

Project Highlights:

Brymark's fabrication expertise was utilized to provide specialty fabrication services for some one off a kind strainers. These Strainers were used as part of PCT's new Canola Handling Facility. By fabricating at Brymark the strainers were supplied to the site forces earlier and the custom requirements were less costly than a factory modified order.
