

Catalyst Paper - Powell River - Concrete Restoration Project

Sector: Pulp and Paper
Location: Powell River, BC
Owner: Catalyst Paper Canada
Duration: 2 Weeks
Completion: October 2015

Project Highlights:

Brymark performed concrete restoration services mezzanine floor level of a new power generation turbine and generator installation. Horizontal surface concrete was removed to a 1" depth to allow for placing and finishing of a repair mortar. The final concrete finish provided a safe and durable surface to access the new turbine and generator equipment.
