

BRYMARK

FortisBC - MT Hayes - Weather Shield & Valve Access Platform Project

Sector: Oil, Gas & Chemical Refining
Location: Mount Hayes BC
Owner: FortisBC
Duration: 1 Month
Completion: July 2015
Consultant: Allnorth Consulting

Project Highlights:

Brymark constructed concrete support footings, installed structural steel columns, beams and metal cladding roof to provide weather protection over a control panel their truck loading facility. An elevated structural steel platform was installed to provide safe access to existing valves in another location. A close working relationship with the client resulted in completing this task ahead of schedule and zero incidents.
